## A Peek at the Week:

**Reading/Language Arts** - Students will finish Unit 8: Plants. We will continue reviewing story retelling and look at descriptive words. Students will learn about a greenhouse and take an in depth look at sunflowers. Also, we will review our 4 new high frequency words for this unit (attached are the flashcards). Keep practicing and remember...letter homework is due on Wednesday! Thank you.

**Math** - Students will take a break from our Math series and spend a week reviewing and visiting math work stations. We will spend some more time on addition before we move on to subtraction.

**Science/Social Studies** - This week, students will learn about the parts of a plant and their life cycle. Students will make an informational diagram and even plant a seed of their very own!
